## BuzzBuzzExclusive: A sneak peek at Flaire Condos' new presentation gallery

APRIL 12, 2012 | Posted in *DEVELOPMENTS, ONTARIO* | Tags: *cadillac fairview, Flaire Condos, fram building group, Shops at Don Mills*

We had the opportunity to tour the brand new [Flaire](#) presentation gallery a little earlier than everyone else and we were very impressed by what we saw.

The presentation gallery has a slick look that blends nicely with a welcoming, community-oriented vibe. That's a great combination if you ask us.

If you're out of the loop on this development, it's one of the many stunning projects currently planned for the Shops at Don Mills. [FRAM Building Group](#) and [Cadillac Fairview](#) have teamed up to bring to life an extraordinary urban village with great retail, restaurants, office space and, of course, residential living opportunities.

[Flaire](#) is in the preconstruction phase, but once complete it will be an architectural standout in the community thanks to its unique [design by Giannone Petricone Associates](#). The presentation gallery will be opening soon, so now that you're in the loop, make sure you stay there! But enough with the formalities, let's check out our pics...

The scale model looks right at home in the new presentation gallery.

The obligatory artistic shot! We like how the wrap around balcony frames the "Flaire" on the screen. Totally intentional on our part...

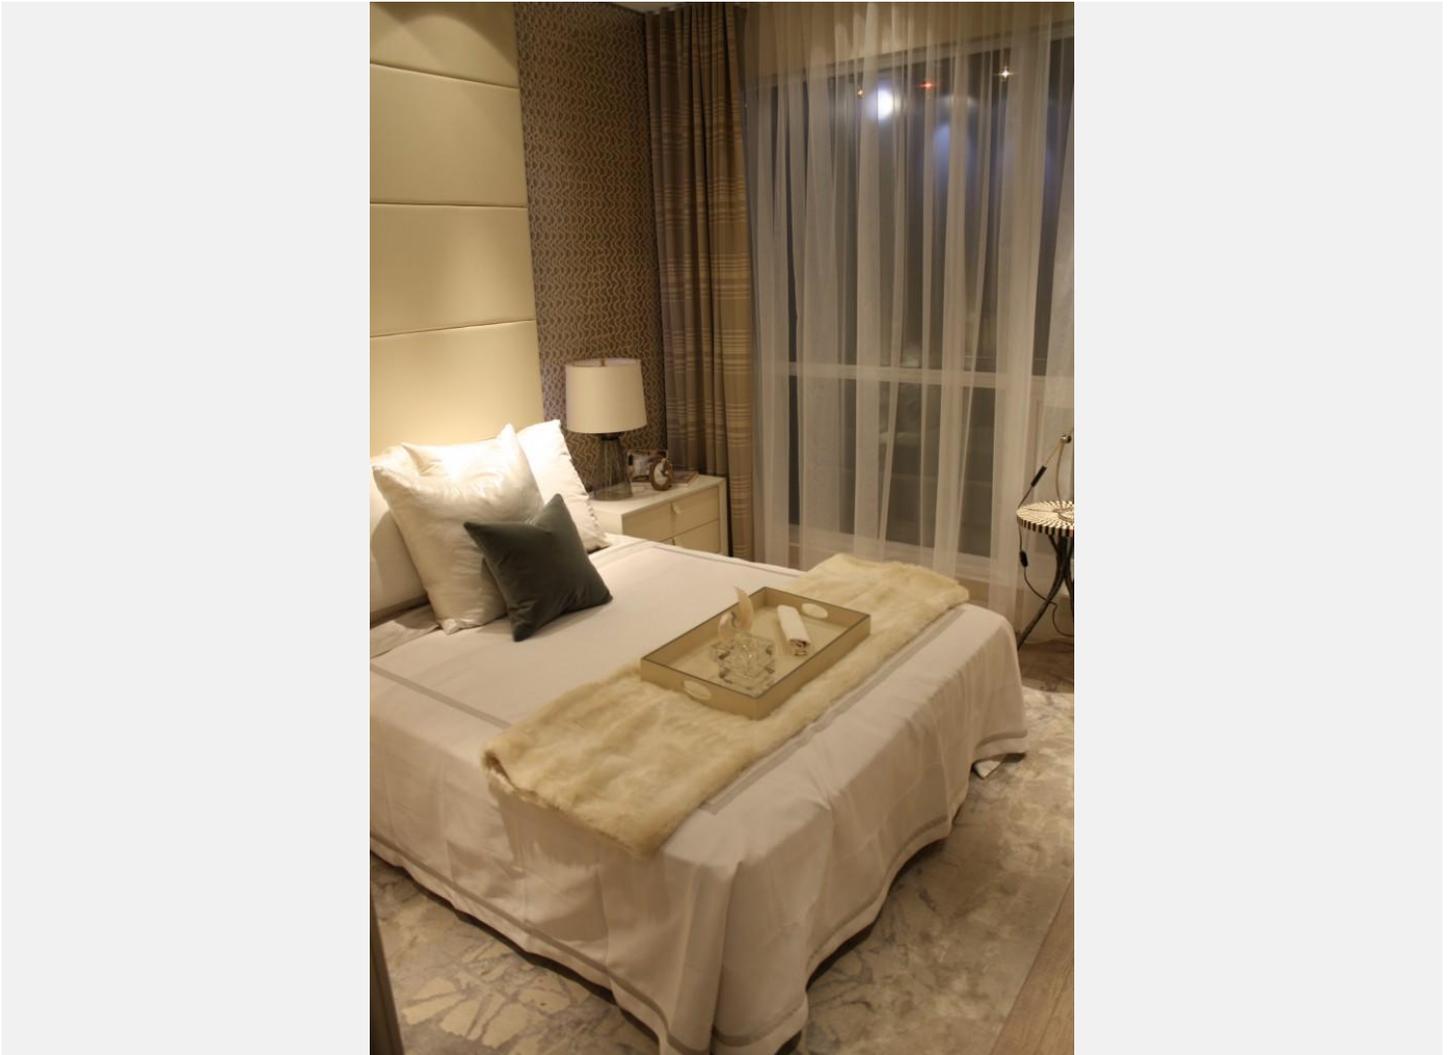

The full community model of Shops at Don Mills. Flaire is on the left, LivLofts is on the right and REFLECTIONS is in the centre

The beautiful Munge Leung designed two bedroom model suite.

Loving the look of the kitchen, especially the smooth wooden cabinetry.

The master bedroom. The design team wanted to ensure that residents would have plenty of space so they expanded the size of the bedroom. No more jumping over your partner to get into bed.
